Box No. I Basis of the report

1. With regard to the language, this report is based on the international application in the language in which it was filed, unless otherwise indicated under this item.
- ☐ This report is based on translations from the original language into the following language _____, which is the language of a translation furnished for the purposes of:
- ☐ international search (under Rules 12.3 and 23.1(b))
- ☐ publication of the international application (under Rule 12.4)
- ☐ international preliminary examination (under Rules 55.2 and/or 55.3)
2. With regard to the elements of the international application, this report is based on *(replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report)*:
- ☒ the international application as originally filed/furnished
- ☒ the description:
- pages 1-31 as originally filed/furnished
- pages* NONE received by this Authority on _____
- pages* NONE received by this Authority on _____
- ☒ the claims:
- pages 32-48 as originally filed/furnished
- pages* NONE as amended (together with any statement) under Article 19
- pages* NONE received by this Authority on _____
- pages* NONE received by this Authority on _____
- ☒ the drawings:
- pages NONE as originally filed/furnished
- pages* NONE received by this Authority on _____
- pages* NONE received by this Authority on _____
- ☐ a sequence listing and/or any related table(s) - see Supplemental Box Relating to Sequence Listing
3. ☒ The amendments have resulted in the cancellation of:
- ☒ the description, pages NONE
- ☒ the claims, Nos. NONE
- ☒ the drawings, sheets/figs NONE
- ☒ the sequence listing (*specify*): NONE
- ☒ any table(s) related to the sequence listing (*specify*): NONE
4. ☐ This report has been established as if (some of) the amendments annexed to this report and listed below had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).
- ☐ the description, pages _____
- ☐ the claims, Nos. _____
- ☐ the drawings, sheets/figs _____
- ☐ the sequence listing (*specify*): _____
- ☐ any table(s) related to the sequence listing (*specify*): _____

* If item 4 applies, some or all of those sheets may be marked "superseded."

Continuation of:

Claims 1, 2, 7 and 54-57 lack novelty under PCT Article 33(2) as being anticipated by JP 58213709 (JP).

JP discloses an agent capable of being kept in the oral cavity for a long time absorbing a drug in the gum effectively. The agent is obtained by laminating a composition containing a water-soluble or water-swellaable polymer and a film-forming agent such as cellulose or its derivatives, polyvinyl alcohol or polyvinylpyrrolidone. JP discloses incorporating nitroglycerin as a drug in the film and also teaches incorporating any other drug for remedy purposes. The ability to not adhere is inherent in the film of JP. Thus, instant claims do not meet the step of novelty.

Claims 8-50 and 64-71 lack an inventive step under PCT Article 33(3) as being obvious over JP 58213709 (JP).

JP fails to teach the percentage of the film forming agent, nitroglycerin and also fails to specify each and every drug of the instant claims. However, JP suggests that the mucosal agent for oral cavity can be used to incorporate any drug as a preventive or as a remedy for various diseases. JP also fails to teach the specific step of drying the drug and the film-forming polymer after casting on a substrate. However, JP teaches laminating the drug and polymer on a substrate and accordingly depending on the dryness desired, adding a drying step would have been obvious for a skilled artisan. Further, adding a desired pharmaceutical agent that can be orally administered, as a drug in the film-forming agent JP so as to provide prevention or a remedy would have been within the scope of a skilled artisan.

Claims 3-6, 51-53, 58-63 and 72-104 lack an inventive step under PCT Article 33(3) as being obvious over JP 58213709 (JP) in view of WO 01/7109.

JP does not teach pullulan as the film forming agent or the claimed surfactants, sweeteners, flavoring agents, surfactants, etc. of instant claims.

WO teaches a fast dissolving orally consumable edible film containing a drug, a taste-masking agent, flavoring agents, surfactants, etc., the film forming material being a pullulan. WO teaches including a number additives in the film including, surfactants, sweeteners etc (pages 3 and 9-15), any known pharmaceutically active agent (pages 4-6) other film-forming agents such as cellulose equivalent to

pullulan (pages 6-9). Therefore, it would have been obvious for one of ordinary skill in the art at the time of the instant invention to use pullulan as a film-former in the nitroglycerin-containing agent of JP and still expect the same drug absorption through the oral mucosal cavity. Further, it is also obvious to add any of the drugs and additives such as sweeteners, taught by WO, in the composition of JP depending on the desired pharmacological and additive effect.

Claims 1-104 meet the criteria set out in PCT Article 33(4), and thus have industrial applicability because the subject matter claimed can be made or used in industry.
